AV SAVIO

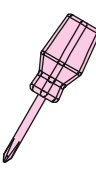

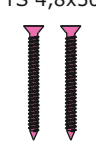

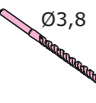

art. 6010.745

**Montaggio incontri**  
Inserire nei profili che lo consentono la guida **B** dopo aver rifilato all'altezza dello scrocco la guarnizione di battuta per ~ 30 mm.  
**Keepers assembly**  
Where profiles allow, insert the guide (**B**) after first reducing the gasket (until the latch) approx. of 30 mm.  
**Montage des gâches**  
Couper le joint en correspondance de la hauteur du pêne sur ~ 30 mm et introduire le guide **B** à l'intérieur des profils qui le permettent.  
**Montaje de los cerraderos**  
Cortar la junta en correspondencia de la altura del pestillo más o menos a 30 mm e introducir, en los perfiles que lo permiten, la guía **B**.  
**Montage der Zuhalter**  
In Profile, bei denen dies möglich ist, die Führungsschiene **B** einsetzen. Zuvor die Flügeldichtung in Höhe der Schrägfalle auf ca. 30 mm nachschneiden.  
**Montaż wodziel zasuwy drzwiowej**  
Po wyrównaniu uszczelnienia profilu złączowego do ~ 30 mm na wysokość zapadki, wsunąć do odpowiednich profili prowadnicę **B**.  
**Установка ответных планок**  
Если профиль позволяет, установите направляющую (**B**), предварительно удалив уплотнитель на 30 мм по высоте защелки.

\* N.B.: Prima di serrare il grano **G** portare in tensione i carrelli del meccanismo principale agendo sull'astina **A** (come indicato al punto 5).  
 Note: Avant de serrer la vis-poinçon **G**, amener en tension les chariots du mécanisme principal en utilisant la tringle **A** (comme indiqué au point 5).  
 Note: Before tightening the grub-screw (**G**) stretch the rollers of the main mechanism acting on the rod (**A**), as specified in the point 5.  
 Nota: Antes de apretar el tornillo **G**, traer en tensión los carros del mecanismo principal actuando sobre la pletina **A** (como indicado por el punto 5).  
 Bitte beachten: Vor dem anziehen der Madenschraube (**G**) ziehen sie die Rollen des Hauptmechanismus, der an der Schubstange arbeitet (**A**), auseinander.  
 Siehe Beschreibung Punkt 5.  
 Zantuj: Przed dokręceniem kołka **G**, naprężyc rolki głównego mechanizmu, działając na drążek **A** (jak pokazano w punkcie 5).  
 Примечание: Прежде чем затягивать винт (**G**) приведите в напряжение ролики основного механизма, воздействуя на тягу (**A**), как показано на позиции 5.
